Artistic universe

Visitors admire *ArtisTree Selects: The Jewel System*, an exhibition by Sara Shakeel at Taikoo Place in Quarry Bay on Friday. Running through April 27, this free showcase features intricately hand-embroidered planets created by a team of 80 artisans. Using 3.9 million crystals, with metalwork, and shimmering silk threads, the vibrant installation reimagines the solar system. Drawing from traditional Pakistani handloom techniques, Shakeel weaves heartwarming stories inspired by world myths and folklore, celebrating the harmony of nature and values of tradition. **ADAM LAM / CHINA DAILY**
